Date: \_\_\_\_ Applicant: \_\_\_\_\_  
Mailing Address: \_\_\_\_\_  
City \_\_\_\_\_ State \_\_\_\_ Zip \_\_\_\_\_  
Individual Completing Work: \_\_\_\_\_  
Cell: \_\_\_\_\_ Email: \_\_\_\_\_  
Hot Work/Welding/Chainsaw Location: \_\_\_\_\_  
Start Date \_\_\_\_ Completion Date \_\_\_\_

**Permit Fee:** No fee will be charged for this permit.

Permit applications can be e-mailed or be submitted in person. Office hours: Mon – Thurs 9am – 4pm. Fri and after hours: by appointment only.

- A field inspection will be performed to determine any additional requirements. Please email [prevention@eagleriverfire.org](mailto:prevention@eagleriverfire.org) to schedule a field inspection prior to the commencing of any activities.
- **No hot works, welding, or chainsaw work will be permitted during Stage 3 Fire Restrictions.** It is the responsibility of the contractor and the management of the work to verify that State 3 Fire Restrictions are not in place during work. **Visit [ECEmergency.org](http://ECEmergency.org) for verification.**
- Fire watch is required for 30 minutes after the completion of work for the entire hot work area per IFC 2021, Chapter 35.
- This permit is valid for one job/site only.
- For chainsaw work, one permit is required per contractor.
- This copy is to be retained by the person authorized to perform the hot work and must be produced on the request of any of our employees.
- Management will retain a copy
- Management, contractors, the fire watch and the operator shall recognize their mutual responsibility for safety during hot work operations.

Revised: 8/2025

- Description of Work:
  
- Note Particular Hazards or Hazardous Areas and List:

Standard Precautions are to be taken:

Precaution	Management Requirement	Contractor to Confirm
Equipment in good working order		
All combustibles removed from work area, at least 35 feet in all directions		
Fire extinguisher available (minimum 2-A:20-B:C rated) with ready access within 30 feet		
Fire blanket provided (if applicable)		
Welding curtains provided (if applicable)		
Ventilation provided		
Barricades required		
Signs required		
Area checked for explosive atmosphere		
Spark arrestor present		
Round pointed shovel at least 35 inches long readily available		
<b>Post welding/cutting/chainsaw fire watch 30 minutes after competing work</b>		

I verify that all hot work has been completed in accordance with the authorized conditions outlined in this form. Additionally, **I verify that the location of work will be under fire watch and inspected 30 minutes after job completed.**
