

Eagle River Fire Protection District

Fire Prevention Bureau

Solar Photovoltaic (PV) System

Fire Prevention Permit Application

Complete this application and submit it to the Fire Prevention Bureau prior to installation of a residential or commercial solar photovoltaic (PV) system within the district. Include a site plan showing the location of all PV modules, inverters, and rapid shutdown/disconnect devices. Incomplete applications will be returned without review, and work may not begin until the permit is approved and payment is received.

1. Installation Information

Date of Application

Address of Installation

Property Owner Name

Owner Phone

2. Installer / Contractor Information

Installer / Company Name

Phone

Mailing Address

Email

3. Permit Fee & Submittal Instructions

Permit Fee: \$50.00 per installation, payable by check only to Eagle River Fire Protection District.

Permit applications may be submitted in person, by mail, or by email to prevention@eagleriverfire.org. Please include a site plan with your application.

Office Hours: Monday – Thursday, 9:00 AM – 4:00 PM. Friday and after-hours by appointment only. Availability of Fire Prevention Bureau personnel during regularly scheduled hours is subject to inspection schedules, meetings, trainings, or other fire prevention duties as assigned.

Mail or deliver applications to:

Eagle River Fire Protection District — Attn: Prevention Bureau
PO BOX 2942
Edwards, CO 81632
Email: prevention@eagleriverfire.org

4. Inspections

A field inspection may be performed prior to permit approval to determine any additional requirements. Please call (970) 748-9665 or email prevention@eagleriverfire.org to schedule a field inspection.

A final inspection will be performed upon completion of the installation. Please email prevention@eagleriverfire.org to schedule your final inspection.

5. Applicant Certification

I certify that the information provided in this application is true and correct to the best of my knowledge, and that the proposed solar PV installation will comply with the Eagle River Fire Protection District's currently adopted Fire Code requirements.
